

Leading Technology.
Outstanding Experience.

Carbon Series

C55

Ultra Compact, Ultra Performance.

Tailor-made for experienced riders, seeking for precision and speed. A good combination of power, control and agility.

Ideal for pro riders and race competition.

Board 55L Carbon Fiber
Wing Racing (default) /Sport (optional)

Mast 80cm Carbon Fiber
75cm Aluminum (optional)

C75

Performance, precision, and pure freedom – from ambitious beginners to advanced riders.

Compact. Strong. Future-Proof.: Ultra-light carbon, easy to transport, built for peak performance.

Suitable for lightweight riders, intermediate and pro riders.

Board 75L Carbon Fiber
Wing Sport (default) / Racing (optional)

Mast 80cm Carbon Fiber
75cm Aluminum (optional)

C100

Stability meets performance – freedom for riders of all levels.
Stable. Strong. Portable: Ultra-light carbon build, effortless transport, designed for long-term performance.
Perfect for versatile riders: from confident beginners to advanced foilers seeking progression.

Board 100L Carbon Fiber
Wing Sport (default) / Cruiser or Racing (optional)
Mast 80cm Carbon Fiber /75cm Aluminum (optional)

Air Series

THE COMPACT, PORTABLE
HIGH-PERFORMER

A100

A versatile eFoil, ideal for lightweight beginners, intermediates, and pros.
Its balanced dimensions provide stability for beginners while giving experienced riders the agility they'll love for carving, racing and even air tricks.

Board 100L Inflatable PVC **Mast** 75cm Aluminum
Wing Sport (default) / Cruiser or Racing (optional)

THE ALL-ROUNDER

A150

Ideal for beginners and intermediates, including heavier riders up to 120 kg. Compact yet buoyant with a 75 cm mast, it provides stability while adding just the right amount of challenge for extra fun.

Board 150L Inflatable PVC **Mast** 75cm Aluminum
Wing Cruiser (default) / Sport or Racing (optional)

THE ESSENTIAL FOR FAMILIES,
SCHOOLS & RENTALS

A230

Maximum stability and beginner-friendly ease of use. Built for teaching and rental environments, it delivers reliable, safe, and strong performance.
Versatile and family-friendly, perfect for group sharing and suitable for all ages.

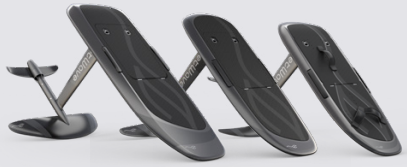

Board 230L Inflatable PVC
Wing Cruiser (default)

Mast 60cm Aluminum
75cm Aluminum (optional)

Carbon 100 / 75 / 55

Ultra Performance | Iconic Design | The Market Benchmark

We've crafted the ultimate eFoil. A masterpiece of cutting-edge technology, premium materials and breathtaking design.

Fully woven CARBON FIBER board

High-temperature compression molding

Industry-leading craftsmanship

- Long-fiber woven carbon
- High-temperature compression molding process
- Supercar-grade coating standards
- Exuding premium quality and luxury

CARBON FIBER Integrated Mast

Combining rigidity and lightness

Precision control experience

- Carbon fiber and PMI aerospace core material molded as one
- Mast seamlessly integrated with the board for elegance and high quality
- 80cm length for higher flight and more versatility
- Whether turning or accelerating, everything is under your direct control

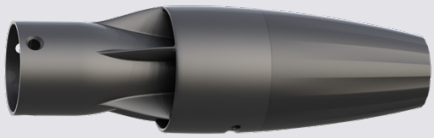

INBOARD Jet Propulsion System

No exposure to hazardous structures

Powerful and safe

- Inboard non-contact propeller
- Zero power loss
- Safe and user-friendly

Full Carbon Fiber Construction

Stronger, Lighter and more Agile

- Pure Carbon Fiber Board, Mast, and Hydrofoil
- Integrated Hydrodynamic Design

Integrated Power Module

Low-Drag Fluid Design

Efficient and Silent

- CNC Integrated Body with Streamlined Shape for Minimal Water Resistance
- Jet Propulsion System for Smooth Power Delivery and Ultra-Silent Performance
- Natural Water-Cooling for Drive and Motor Power Components, Maximizing Efficiency

6KW Motor

Powerful Performance

Ultimate Control

- 6KW High-Power Motor for Thrilling Power
- Three Control Modes: Beginner, Sport, Wild
- Effortless Control at Your Fingertips
- Dual-seal Design for Optimal Reliability

Air 230 / 150 / 100

Flexible | Durable | High-Performance

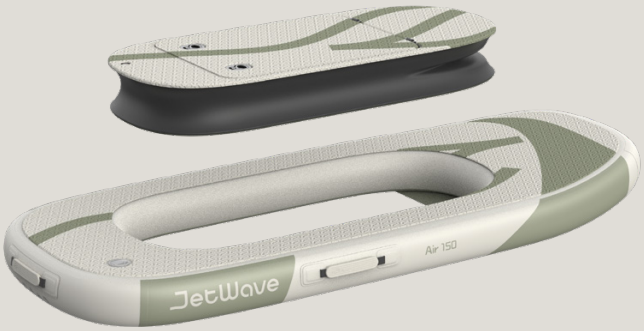

We are committed to creating an eFoil designed for all users, made with premium materials that are both sturdy and durable, and available in a variety of colors.

Its dimensions are perfectly balanced, making it ideal for beginners while providing excellent flexibility for intermediate and professional riders to fully enjoy.

Dual Air Chamber Design Portable, Durable, and Flexible to Adapt

- High-Strength Composite Core Board
- Double-Layer PVC Woven Fabric Outer Shell for Enhanced Durability
- Easy to Store, Maintain, Replace, and Upgrade

Aluminum Mast Corrosion-Resistant and Strong

- Aerospace-Grade Aluminum Construction
- Hard Anodizing Process
- Available in Two Sizes: 75cm, 60cm

Ultra-High Buoyancy Super Easy for Beginners

- Handlebar Assistance for Stable Standing, Making It Easier
- Ultra-High buoyancy enables beginners to stand more stably.
- Non-Contact Integrated Blades for Enhanced Safety

Air 230 / 150 / 100

Modular Design for Easy Maintenance

- Board, Drive, Motor, and Pump
- All Feature Modular Design
- Facilitates Simple Repairs and Replacements

Height-Adjustable Handlebar Convenient for both adults and children

- Adjustable range: 80 cm -105 cm
- Friendly to children

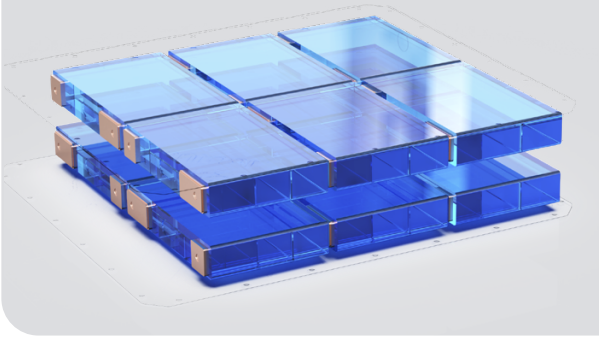

Multiple Sizes Available There's a Perfect Fit for Everyone

- Available in Three Sizes: 230L, 150L, and 100L
- Perfectly Suited for the Diverse Needs of Clubs, Yachts, Families, and Individual Users

Batteries and Chargers

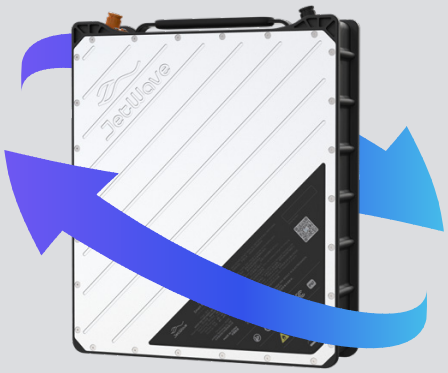

12 Cells, "Less" is "More"
Fewer Cells, Greater Reliability

- Only 12 Cells Needed, Equivalent to Traditional 200 Cells Capacity
- Latest High-Capacity Cell Technology
- Ten Times the Industry Level

Cycle Life Exceeds 1000 Times
3 Times the Industry Standard

- Automotive-Grade High-Reliability Cells with Advanced BMS Management Technology
- Significantly Reduced Cost per Use

Endurance Battery	Performance Battery	Quantum Battery
1000 cycles	1500 cycles	1000 cycles

Endurance Battery

Longest-lasting battery with up to 2 hours runtime. Features high-performance cells and an upgraded BMS to extend lifespan, shorten charge time, and reduce maintenance. Compatible with all board series (except C55), it supports Super Fast Charging for a full charge in 1 hour.

Weight	14.8kg	Capacity	55Ah 2.4kWh	Nominal Voltage	44V

Performance Battery

Our most popular battery, designed for speed, agility, and responsive handling in electric hydrofoils. It offers a balanced mid-range runtime for high-energy riding, with a marine-tough lithium-ion build and an upgraded BMS for superior performance.

Weight	10 kg
Capacity	38Ah 1.7kWh
Nominal Voltage	44V

Quantum Battery

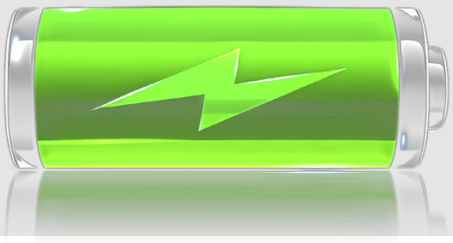

The world's most advanced electric hydrofoil battery, featuring revolutionary Semi-Solid-State technology. At just 7 kg, it delivers 1.3 kWh of ultra-high capacity for exceptional energy density—combining compact design with immense power for stable, agile rides.

Weight	7.3 kg
Capacity	30Ah 1.3kWh
Nominal Voltage	44V

65A Rapid Charging – Enjoy Without Waiting

30 min

- Supports 65A/3.3KW High-Power Charging
- No More Long Waits for Charging

Model	Endurance Battery	Performance Battery	Quantum Battery
1.2Kw	120min	75min	60min
3.3Kw	60min	40min	30min

Efficiency First!
No Standard Charging,
Only Fast and Super Charging

- Available in Two Specifications: 1.2KW Fast Charging and 3KW Super Fast Charging
- Two Batteries Provide Continuous Operation Throughout the Day

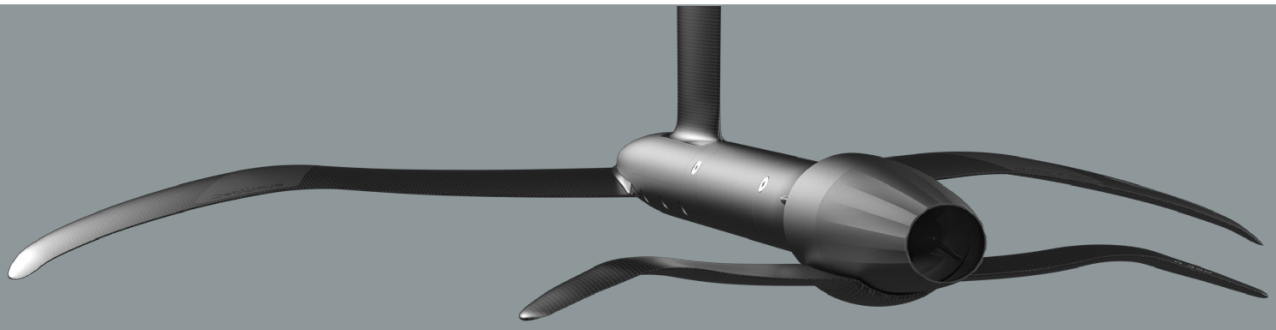

Fast Charger

Super Charger

Wings

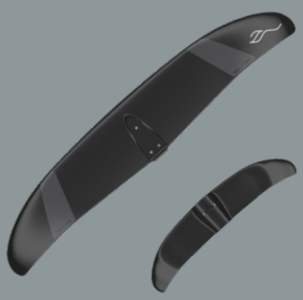

Full Carbon Fiber Wing Set
Multiple Configurations for Flexible Selection

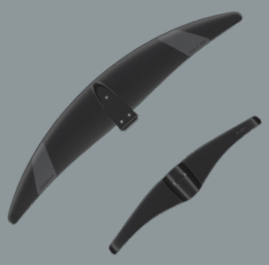

- Configured with Different Wing sets for Varied Experience Needs
- Users Can Flexibly Customize and Swap Based on Their Skill Levels and Requirements.

Cruiser Wing Set
F1750 R500

Sport Wing Set
F1300 R350

Racing Wing Set
F700 R200

Features	High Stability, Low Speed Takeoff	Low Resistance, High Efficiency, Balanced Performance	High Speed, Agile Handling
Target Users	Beginners, Rental Business	Beginners, Intermediate	Pro, Competitions

Remote Control and APP

High-Definition Display
Wet Hand Touch Control
Gamified Experience

- 480 x 640 High Resolution
- 2.8-Inch High-Brightness Color Display
- Gamified Interactive Experience
- Button Operation + Wet Hand Touch Control
- Equipped Vibration Feedback

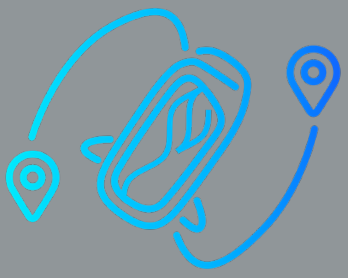

First to Introduce Connected Remote Control
Unlimited Expansion with
Vessel and Engine Connectivity

- Built-in 4G Communication Module
- Supports Advanced Vessel and Engine Connectivity
- No Need to Carry a Phone
- Data Automatically Uploaded to the Cloud

Voyage Records Synced to the Cloud
Share Memorable Moments with One Click

- Real-Time Voyage Records Synced to the Cloud
- One-Click Sharing via Mobile Phone
- Smart Detection of Performance Data
- Global Competition Ranking

Remote Device Management,
Keeping Operational Data at Your Fingertips
One-Click Issue Feedback and Remote Fault Diagnosis

- Supports Remote Electronic Fence Setup for Comprehensive Safety Management
- In Case of Issues, Contact Customer Support with One Click for Remote Fault Analysis
